Education

University of South Carolina

Bachelor of Science in Computer Science

Columbia, SC

May 2028

Projects

Personal Website, In Class Project

Front-End Engineer + Back-End Engineer

- Developed a website that talks about my personal skills with programming
- Designed links and buttons to access my various projects

SewAly Designz

Front-End Engineer

- Built a website with multiple pages highlighting the client's catalog of merchandise, a page to enroll in classes, and a page to find out more information about the client.
- Worked with a team to decorate the website with images, box layouts for texts, and consistent colors throughout the entire site

Technical Skills

Languages: Java, HTML, CSS, Python

Developer Skills: Github
