

Problem Statement

The lack of trash cans in the Pavilion dining hall is negatively impacting the efficiency of throwing away simple trash like a banana peel or piece of tissue.

Details

Since there is no trash can in the Pavilion dining hall, you must throw all your trash away on a plate and put it in the dish conveyor. If you don't have a plate and have something small like a napkin, you have to wait to throw it away in one of the outside trash cans around the campus. If the Pavilion just added 2-3 bins around the dining area, it would make this big and annoying problem really simple and easy.
